## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McElheny (see all 3 embodiments of Figures 2, 4 and 5; column 3, lines 37-74; column 4, lines 36-58 and column 5, lines 7-32).

As for claim 13, the "adapted to" phrase is given no patentable weight.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ricles et al (US 5,088,557) (see the embodiment of figure 6 and column 4, lines 38-63).

4. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Stout (US 4,515,217) (see figures 1-2 and column 4, lines 22-45) or Barfield (US 4,605,074) (see figures 1-4 and column 6, lines 36-62 for example).

It is again noted that the "adapted to" phrase in claim 1 and 12 is given no patentable weight.

### *Drawings*

5. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 700, 704, 706, 710 and 712 in Paragraph [0065]. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are

Art Unit: 3672

required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### *Specification*

6. The disclosure is objected to because of the following informalities: In Paragraph [0064], reference numerals 114, 124, 126 and 127 should be changed to 614, 624, 626 and 627, respectively. The copending applications recited on the first page of the specification should be updated.

Appropriate correction is required.

### *Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
